

SASKATCHEWAN REGION

835C – 60th Street East, Saskatoon, SK, S7K 5Z7 Ph: 306.373.4134

1

- Resilient seated butterfly valves
- HP butterfly valves
- Triple offset valves
- Actuators & accessories
- Knifegate valves

7

- Ball valves
- V-Control ball valves
- Actuators & accessories

13

- Pressure reducing automatic control valves
- Pressure relief/ sustaining/ surge
- Pump control
- Level control
- Flow control

2

- Check valves
- Camlocks
- Loading arms

8

- Sleeved plug valves
- Severe service (FE) plug valves
- Lined plug valves
- EZ seal packing
- Accessories

14

- Engineered control valve for abrasive applications
- Field replaceable wear parts
- Flow is centered in the pipe, reducing downstream wear
- The toughest orific plate in the world

3

- Valve actuators
- Mill type and NFPA cylinders
- Fail safe systems
- Control panels

9

- Needle valves
- Manifold valves
- Diaphragm seals
- Pressure, Level, Temperature measurement solutions

15

- Fully integrated hydraulic power packages
- Electrical controls package
- AC, DC or AC/DC operation
- Fail safe options

4

- Ball valves;
- Metal seated and soft seated
- High pressure large diameter
- Pipeline

10

- Pinch valves
- Knife gate valves
- Pressure sensors
- Expansion joints

16

- Duckbill style check valve
- Potable water mixing systems
- Aeration systems
- Effluent diffusers

5

- Instrumentation
- Liquid analysis
- Flow measurement
- Level measurement
- Pressure measurement

11

- Electric, pneumatic & hydraulic valve actuators and control systems
- Valve gearboxes
- Precision control instruments

17

- Air valves
- Check valves
- Eccentric plug valves
- AWWA butterfly valves
- Severe service ball valves

6

- Steam traps (zero steam loss)
- Check (non-return) valves
- Air vents
- Blow down valves
- Steam equipment

12

- Control Valves - globe, plug, v-port, butterfly
- Actuators
- Positioners
- Instrumentation

18

- High performance zero leakage bi-directional shut off slurry knifegate valves
- 2" – 96" 150# & 300# lug and Full flange
- Transmitter isolation valves

What we do

Over the last two decades, Summit Valve has expanded to include complete valve, actuator and accessory packages, as well as engineering and startup services. We offer innovative products that reduce your cost of ownership and improve performance.

19

- Stainless steel gates
- Aluminum gates
- Stop logs
- Stop and Flap gates
- Telescoping valves
