

MUNICIPAL SOLUTIONS

THE RIGHT PEOPLE. THE RIGHT PRODUCTS.
THE RIGHT SOLUTIONS.

ABOUT SUMMIT VALVE

Since 1992, the foundation of our business has been the supply of valves, actuators, and controls from the most reputable manufacturers in the municipal water and wastewater industry. Over the years, Summit has developed a reputation for not only supplying these essential products, but applying them.

Helping clients specify products that are fit for purpose, providing technical services for start-up and commissioning, and system troubleshooting are just some of the services we offer. Summit also provides product training, including certified operator training courses, to ensure that our customers have the knowledge base to operate and maintain the products we sell. The value we bring only begins with the brands that we represent.

SUMMIT SPECIALIZES IN:

- Valves— isolation and control
- Valve Automation—electric, pneumatic, hydraulic
- Potable water mixing systems for water storage reservoirs
- Aeration and high rate mixing systems
- Process Instrumentation for flow, pressure, level and temperature
- Technical service
- Training

SUMMIT PROVIDES:

- Engineering specifications
- Drawing review and recommendations
- Datasheet development
- Project take off and comprehensive bid packages
- Project Management
- Commissioning

INDUSTRIES SERVED

WATER & WASTEWATER

Treatment | Storage | Pump Stations

Oil Sands | Sag-D | Natural Gas Refining
Processing | Pipeline Storage

MINING & METALS

Potash | Copper | Gold | Diamonds
Zinc | Nickel | Molybdenum | Coal

INDUSTRIAL

Pulp & Paper | Chemical Processing
Power Generation | Food & Beverage | Marine

AT SUMMIT **WE CARE**

The value we provide goes beyond the products we represent. We have a history of successful projects, product performance, and engineered solutions that work. Our project management team and technical specialists provide value at all stages of your project, from FEED (Front End Engineering Design) and detailed engineering to commissioning and after-sales support.

Our mission is to be your preferred flow control supplier and provide engineered solutions that work. Integrity is at the core of our values and a key element of every client relationship.
